Closures of Hardy and Hardy-Sobolev spaces in the Bloch type space on the unit ball

For $0 < \alpha < \infty$, $0 < p < \infty$ and $0 < s < \infty$, we characterize the closures in the α -Bloch norm of α -Bloch functions that are in a Hardy space H^p and in a Hardy-Sobolev space H_s^p on the unit ball of \mathbb{C}^n . This is a joint work with Jasbir Singh Manhas.
